CAREER HISTORY

Web developer

/2019-NOW/ FREELANCE

Developed a progressive web application that looks great on mobiles and computers plus its Admin panel on JavaScript using React in connection with Firebase for database, authentication and hosting
www.khaita.com

/2018/ FREELANCE

I've made web sites and online stores with site builders such as WordPress and Tilda, and some other sites from scratch.

As an example a web site to support one of activities of free community in Italy www.libereria.tilda.ws

1C programmer

/2017/ BABADU

/2013-2016/ STEEL RESOURCE-REGION

/2012/ DIALOG INFORMATION TECHNOLOGIES

/2010-2012/ LOZA IMPLEMENTATION CENTER

/2008-2010/ BIT SPB

I updated the scheme of a large distributed information system of an enterprise with an exchange of data between main office and departments, that allowed to have a more precise financial control and significantly improved the security of system
